

# Paediatric Oncology Parent & Family Evening

**As a parent or carer of a child treated for cancer, you are warmly invited to the Parent and Family Evening at the Australian and New Zealand Children's Haematology and Oncology Group (ANZCHOG) Annual Scientific Meeting.**

As the leading scientific meeting for paediatric oncology in Australia and New Zealand, ANZCHOG's Annual Scientific Meeting will bring together paediatric oncology and haematology specialised professionals and researchers from all over Australasia to discuss the latest developments in research and treatment.

This is an opportunity to learn, ask questions and meet some of these paediatric oncology healthcare professionals. We sincerely hope that you will be able to join us for an informative and interactive presentation, Q&A, as well as an opportunity to mingle and enjoy some refreshments with other families.

If you aren't able to join us in-person, we welcome you to register your interest for a Zoom session or to receive a copy of the recorded presentations to view in your own time.
